The World's Largest Event for the Renewable Carbon Economy: Bio-based, CO₂-based and Recycling

renewable-materials.eu

Key Topic: Defossilisation through Innovation

22 September

Defossilisation of the Chemical Industry

- Renewable Carbon Strategies
- New Pathways
- Fine & Speciality Chemicals
- Lignin Utilisation
- CO₂ Utilisation

23 September

Fossil-free Plastics

- Bio-based Polymers, Market & Application Development
- Coating, Adhesives & Binders
- CO₂-based Polymers
- Recycled Polymers & Plastics
- Automotive, Consumer Goods, Packaging, Textiles, Toys

24 September

Setting the Frame for Renewable Carbon

- Creating Market Pull
- Vision & Strategy

24 September

Biodegradation

- Science & Policy Progress
- Applications
- System Solutions
